

Dear Greene's Gas Company Customer,

Back in 1994 the Michigan sales tax was increased from 4% to 6%. Greene's Gas Company was notified that customers who purchased propane for residential use, like you do, need only pay 4% sales tax.

We were informed by the Sate of Michigan the following certificate of exemption must be on file for you to receive the 2% exemption. In order for you to receive the 4% Michigan sales tax, the form below needs to be filled out and returned to our office.

Thank you for your using Greene's Gas!

Certification for Home Heating Fuel for Residential Use

The undersigned hereby certifies that the fuel being purchased is to be used and consumed for residential home use and, therefore, qualifies for the 4% rate. In the event that this certification is disallowed, the transferee promises to reimburse the seller for the amount of the full 6% tax rate.
